“ *To my only brother. It might be step brother but you will always be my real brother and you will be missed by many. Please watch over myself and your nephews 😍 We love you with all our hearts and soul. You will never ever be forgotten 😭*

“ *Chris was and will forever be my only brother. In spite of a seven year age difference and different fathers we had a connection and a deep love that can never be replaced. His warmth, intelligence, optimism and his gentle, sensitive spirit made the world a better place, and my heart aches for his loss. Rest in peace, brother.*

“ *Chris helped me out on several occasions when I had the bar and when I needed anything done at my own house. I enjoyed when he would come into the bar. There was always something to talk about as he had a vast knowledge of many things! (and we liked the same music). As Lynyrd Skynyrd said "Be a simple kind of man." and that you were. Rest in Peace my friend.*

“ Over the years I would always stop and talk to Chris when I seen him in town. No matter what was going on he was always positive. He always did his own thing and kept to himself and I will always respect him for that. May he be at peace. -Gary Sullivan
