“ Dawn was one of the kindest people I know, One winter evening my furnace went out and no one could come till morning to fix it. I posted my situation on Facebook and she was the first person to respond. She said she was sending Dave over with a little electric fireplace! I know more than finished reading it when Dave knocked on the door and brought it in and sat up it all up for us! My twin grandsons and my furbabies slept on the floor in the living room and I slept on the couch, we were warm and cozy all night. I will always remember their kindness that night. Rip sweet lady <3 Thinking of Dave and her family and sending prayers for comfort and strength.
