“ Dr. Bill brought sanity, balance, health to my life. In many ways, he saved it, and directly saved the life of my 3 months premature son, who was born early due to a blizzard in CO. We were transported by plane and helicopter from Durango into Denver, for the birth. He told me what remedies to give my son, by phone! And they worked their magic!

I so much appreciated my long drives out to his place for my appts., seeing his garden, so much so, that I have continued in the "old ways," here in Encinitas, CA, with my "Holistic House Calls" practice. I didn't know that he also lived here at one time. There was no homeopath like him! He was the only person that I know that really understood me, and could help me, by teaching me to understand and to help myself! I loved him for that.

Yes, his unconditional love was amazing! His kind words to me will always be remembered!
