“ *Our sympathies to Mac's family. He was a good friend who knew so much about machines, home repairs, and lawn and garden care. He tended a trumpet vine of his mother's and passed on plantings of it to others(we have a robust offshoot of it at our house). He was proud to pass on to others some of his special gourds in the fall. In years past he treated many friends at Christmastime to his homemade and the most delicious frosted and decorated pretzels. Thanks Mac! We will miss you dearly.*

“ *Always enjoyed seeing "Mac", he would greet me by name with a big smile that came from deep within. I will miss that. I last saw Mac this past summer when we happened to be at Larry's station at the same time. We talked about cars and his experiences with a few of the first cars he owned. Mac was always interesting to listen to and he cared about the people he came in contact with. There were times when he honestly shared with me his health problems and I knew he had a tough time of it. He was a great friend who can not be replaced.*
